

League Report — Episode 3

"What I'm Smellin' Is Stinky" • Aired Wednesday, October 7, 2026

Episode Recap

Savu finally broke through. The purple tribe took the combined reward-and-immunity challenge — the double win — sending Toka to Tribal Council. That was only the start of a wild hour.

Mid-episode, Rob Antonson quit the game without a medical reason. Under the new GTFO Rule — "Quitters stole someone's dream" — the quit scored -10. President Bigorious: "We dont reward quitters in this league." Before he left, Rob gifted his hidden immunity idol to Carter Krull; Carter earns no points for receiving it, as the idol's find was already scored in Episode 1. During the tribe visit, Devin Way secured a secret Extra Vote — both his journey success and the extra vote count. Brady Booker also handed Maggie Nestor a retrieved Extra Vote. At Tribal, Patt Cannaday was voted out 6-5 over Danny "Kilby" Kilby. She had joined Janet's Team 5 as the Designated Survivor pickup from Episode 2 onward. Seventeen castaways remain.
